A MESSAGE FROM THE CHAPTER PRESIDENT

Dear Members of the PMI South Florida Chapter,

As we embark on 2025, I am enthusiastic and optimistic about the journey ahead. Our chapter stands at the forefront of a dynamic and evolving project management landscape, and together, we are poised to make significant strides in our professional and personal growth.

Chapter Initiatives and Benefits

In alignment with the Project Management Institute's global vision, our chapter is dedicated to empowering project professionals to navigate the complexities of today's world. This year, we are focusing on several key initiatives:

- **Professional Development and Continuous Learning:** We are committed to providing our members with opportunities to enhance their skills and knowledge. Our upcoming events, such as the *"Beyond the Magic: Implementing Best Practices for Projects in Cruise Line Operation"* virtual event on February 27, 2025, will offer insights into industry-specific project management practices.
- **Networking and Community Engagement:** Recognizing the value of strong professional networks, we organize events like the Volunteer Welcome Event on February 22, 2025, at the Broward County Government Center West. This gathering aims to foster connections among members and provide avenues for collaboration.
- **Mentorship Programs:** Our Spring 2025 Mentoring Program is designed to pair experienced project managers with those new to the field, facilitating knowledge transfer and professional development. This initiative reflects PMI's emphasis on continuous learning and career advancement.
- **Embracing Artificial Intelligence and Innovation:** In response to the growing impact of AI in project management, we offer training sessions to equip our members with the necessary skills to leverage AI tools effectively. These programs align with PMI's focus on preparing project professionals for the future.

As we move forward, I encourage you to actively participate in our initiatives, share your insights, and continue supporting one another. Together, we will navigate the challenges and opportunities of 2025, fostering a vibrant and supportive project management community in South Florida.

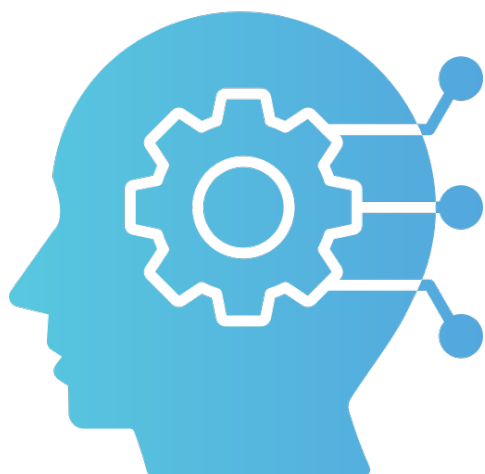

Always remind yourselves to "Have a Great Day...On Purpose!"

**Warm Regards,
Corey R. Patton, PMP
President, PMI South Florida Chapter**

THREE PROBLEMS MACHINE LEARNING CAN SOLVE IN THE HEALTHCARE INDUSTRY

Predictive analytics represents a groundbreaking application of machine learning, a subset of AI, for the healthcare industry, focusing on the ability to forecast the likelihood of patients developing specific chronic conditions. This innovative approach leverages a comprehensive analysis of members' medical histories, demographic information, and lifestyle choices. The scenario aligns perfectly with the core principles of machine learning, as it can be structured as either a classification or regression task. The healthcare industry's extensive patient data repository serves as a robust foundation for training machine learning models, enabling the identification of health trends that reveal consistent patterns. These patterns can be harnessed by machine learning algorithms to generate precise predictions, ultimately enhancing patient care and outcomes.

In addition to predictive analytics, machine learning holds significant potential in delivering personalized health recommendations to patients. The goal is to design tailored health and wellness programs that cater to individual health profiles, behaviors, and preferences. This initiative aligns with the fundamental requirements of machine learning, as it can be framed as a recommendation system problem. Leveraging an extensive data repository on patients' health outcomes, the industry possesses invaluable insights to refine the algorithms that power personalized recommendations. While human health behaviors and preferences are inherently diverse, they often reveal recognizable patterns that machine-learning models can exploit to provide accurate and relevant suggestions for each patient.

Another promising application of machine learning in the healthcare industry is the optimization of customer service through automated support systems and chatbots. This initiative aims to predict and effectively address member inquiries, thereby reducing response times and enhancing overall satisfaction. The challenge can be approached as a natural language processing (NLP) task focusing on understanding and generating human language. The healthcare industry possesses a substantial amount of customer interaction data, such as chat logs and call transcripts, which can be utilized to train NLP models. Despite the complexities associated with human language, there exists enough regularity within it for these models to be trained to comprehend and respond accurately to common inquiries, leading to improved customer service experiences.

These problems can be effectively addressed through machine learning, capitalizing on the rich data available within the healthcare industry's operational framework. By leveraging the inherent patterns in this data, the industry can enhance predictive analytics and personalized health recommendations and optimize customer service. As machine learning continues to evolve, its applications within the industry will undoubtedly expand, paving the way for more innovative solutions that prioritize patient well-being and satisfaction.

Obinna Madubuike, MS

Obinna is an experienced technology professional dedicated to lifelong learning and innovative solutions. Holding a Master of Science degree in Health Informatics and Analytics from Florida International University, he brings expertise in integrating technology, healthcare, and data-driven strategies. His skills empower organizations to drive innovation and excel in today's fast-paced, dynamic environments.

Love, Leadership, and Lessons from PMI's Global Valentine's Event

On **February 14, 2025**, PMI Taiwan hosted the **Valentine's Day Global Event**, bringing together **hundreds of project managers** from across the world. Participants from **South Florida, Taiwan, Kenya, Malaysia, the UAE, Hong Kong, Mongolia, São Paulo, Bangladesh, and Uganda** shared inspiring stories on how **project management strengthens connections, fosters leadership, and enhances collaboration**.

Our very own David W. Driesbach, PMP—Vice President of Education for PMI South Florida —was honored to be among the featured speakers. David shared a heartfelt story about how project management plays a vital role in maintaining his long-distance bond with his daughter. Through careful planning, strategic communication, and adaptability, he ensures that meaningful moments - are thoughtfully coordinated, proving that project management isn't just about work—*it's about life*.

Panelists discussed how **PMI serves as a global platform for mentorship, networking, and career development**. Many shared experiences of **how PMI has built strong professional relationships across cultures**, proving that the organization is more than a certification provider—it is a catalyst for **growth and meaningful connections**.

This event showcased **PMI's global impact, uniting professionals through shared knowledge and experiences**. **A special thanks to David Driesbach and all panelists for their leadership and contributions!**

Community Outreach at Silver Lake Middle School: Introducing Project Management Through a Birthday Party Plan

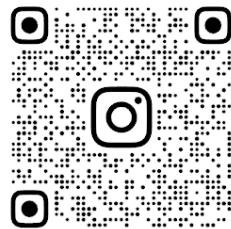

PMI South Florida was honored to participate in the Silver Lake Middle School Career Fair on February 25, 2025, engaging around 50 enthusiastic fifth and sixth graders in an interactive and fun-filled introduction to project management. To make the concepts relatable, we used a familiar scenario—planning a birthday party!

During the session, students explored key project management principles, including defining objectives and scope, breaking down tasks (Work Breakdown Structure), setting timelines, and allocating resources. As they mapped out their birthday party project, they considered elements such as choosing a theme, budgeting for decorations and food, sending invitations, and organizing activities. Through this hands-on approach, they quickly grasped the significance of planning, teamwork, and adaptability—essential skills in project management and daily life.

The activity encouraged students to think critically and collaborate effectively. They identified potential challenges, such as last-minute cancellations or budget limitations, and brainstormed contingency plans. By the end of the session, they understood how structured planning leads to a successful event—whether it's a party or a real-world project.

Our outreach at Silver Lake Middle School highlighted the value of introducing project management concepts at an early age. By making these skills accessible and engaging, we hope to inspire the next generation of leaders and problem-solvers. PMI South Florida looks forward to continuing to share project management knowledge with young minds in our community!

REEL SHARED ON MAR 4, 2025
BY CRYSTALLAKEPTSA

AGILE INTERNATIONAL CONFERENCE 2025

On **March 6th & 7th, AIC 2025** brought together industry leaders, innovators, and Agile professionals at **FIU** for two days of game-changing insights and collaboration! From thought-provoking keynotes to hands-on workshops, the energy was electric as attendees explored cutting-edge strategies to drive Agile success.

PMI South Florida was excited to **sponsor the Career Fair**, connecting top talent with career-changing opportunities! It was inspiring to see professionals expand their networks, land new roles, and take the next step in their careers.

PMI MBA SCHOLARSHIPS AVAILABLE

No Bachelor's, No Problem

PMI (South Florida Chapter) is proud to provide you with access to some of the world's leading universities, supported through scholarships and tuition assistance. The MBA's are 100% online and project based assessments, tailored to your career and industry. The delivery model aligns perfectly with the vision and methodology of project management professionals.

Entry Requirements*: Minimum of 3 years management experience, no Bachelor's degree required.

*Specific entry criteria may vary for each program

Course Fees: Tuition starts from \$9,000 total, after the scholarship. Tuition fees depend on the program selected.

Gain your qualification from our following partners:

Want to be part of something bigger? There's still time! Reach out to membership@pmisouthflorida.org and start making an impact today.

Together, we're building a stronger, more connected project management community!

SPOTLIGHT: GET TO KNOW YOUR PMI VOLUNTEERS

Shaena-Rene Robinson, PMP
Finance Director

finance.contracts@southfloridapmi.org

[Shaena-Rene Robinson, PMP | LinkedIn](#)

Why did I volunteer?

No matter how I tried, I couldn't find a network that matched my ambition and drive. That changed when I joined PMI South Florida's mentorship program and met my incredible mentor, Priyanka, who opened the right doors. Through her, I connected with our unflappable Finance Vice President, Stanley, and our phenomenal past Vice President of Finance, Allison, who reinforced that I was in the right place. Volunteering here allows me to support others while evolving professionally—the best of both worlds.

More About Me:

I'm an avid reader, especially of fantasy, where magic and imagination reshape reality. That same belief in making the impossible possible fuels how I approach my work—seeking innovative solutions, refining systems, and recognizing potential where others may not. My curiosity extends beyond books into languages and cultures, having studied Spanish and French for years. To me, the best solutions are the ones that create meaningful and self-sustainable impacts—not just for individuals but for the communities they support.

My Role As A Volunteer:

As PMI South Florida's Finance Director, I focus on financial strategy, contract risk management, and project oversight. I review partnership contracts to safeguard PMI's best interests, ensuring agreements align with our mission. This role has sharpened my leadership, risk assessment, and financial strategy skills while allowing me to collaborate with an exceptional team. Volunteering here isn't just about giving back—it's about building something that lasts.

Rupert Hutchinson
Education/Technology Member

steve@southfloridapmi.org

[Rupert Hutchinson | LinkedIn](#)

Why did I Volunteer?

I volunteered because I wanted an opportunity to own my craft in a new environment. It also gave me a chance to meet and be around like-minded people. There is also the thing of giving back; it always motivates me. Just that thought of making a difference is worth it.

More About Me:

I am a passionate and dedicated individual who loves learning new things and meeting new people. I like to challenge myself to see all the ways I can grow, and it gives me joy when I achieve the unthinkable. As a Project Manager, IT Professional, and leader/manager, I have realized that continuous personal development also helps you professionally. Never stop growing.

My Role As A Volunteer:

is to use my skills and expertise to help the chapter grow. I helped migrate our data from Google Workspace to the Microsoft 365 (M365) platform. Currently, I am a member of the Education and Technology Teams.

PMI South Florida Chapter Seeks Volunteers:

Put your skills and experience to work to help promote the profession that you love. Become a volunteer with the South Florida PMI Chapter.

We welcome your participation and dedication to give back to the community and profession that has done so much for your career development. Now is the time to seize the opportunity to help others and give back to the community. Apart from the satisfaction of helping and educating others, you will also enjoy great networking opportunities. Chapter volunteers are also honored through our Volunteer Recognition Program each year. Feel free to contact any member of the Board!

LEVERAGING AGILE FOR EFFECTIVE CUSTOMER-FACING COMMUNICATIONS

Agile project management can offer significant advantages to highly regulated industries, where customer-facing communications are abundant and critical, by streamlining the creation and vetting process of these communications, mainly through developing automation options for template creation.

Agile's core principles—collaboration, adaptability, and continuous improvement—provide a robust framework for managing the complexities of regulated communications. Teams can develop and test individual components in iterative cycles by breaking projects into smaller, manageable increments. This approach allows for regular feedback and adjustments, ensuring that each template or update to an existing template meets regulatory requirements and internal standards.

Organizations can benefit from Agile by automating the creation of customer-facing letters and emails. The team can incrementally develop and implement tools for generating standardized templates by prioritizing automation features in sprints. This automation reduces manual effort and ensures consistency and accuracy in communications.

One of the significant advantages of Agile is its emphasis on collaboration. In a regulated industry, involving stakeholders, including legal and compliance teams, early in the process can ensure that each communication template is vetted and approved before deployment. This collaborative approach reduces the risk of non-compliance and enhances overall project success.

Agile also promotes a mindset of continuous improvement. Regular retrospectives provide opportunities for teams to reflect on their performance, identify areas for enhancement, and implement actionable changes. This commitment to ongoing learning and development helps teams stay ahead of regulatory changes and deliver superior results.

Agile project management empowers companies to navigate the complexities of customer-facing communications. By embracing its principles and leveraging automation for template creation, teams can enhance collaboration, increase adaptability, and drive continuous improvement, ultimately leading to more efficient and compliant communications.

Silvana Pineiro, MS, PMP

Silvana is a PMP®-certified Communications and Operations leader with a master's in Project Management & Operations and has extensive experience in highly regulated industries. She specializes in leading cross-functional teams and managing projects from concept to completion. With a background in writing and editing in English and Spanish, Silvana integrates communication expertise with project management to optimize processes, align resources, and deliver solutions that drive successful outcomes.

MAXIMIZE YOUR LINKEDIN PRESENCE WITH PMI SOUTH FLORIDA

Engaging with **PMI South Florida on LinkedIn** is more than just staying informed—it's about **building visibility and connections** within the project management community.

Here's how it works:

- **Like & Comment** – When you interact with our posts, LinkedIn recognizes your engagement and increases your visibility to others in our network.
- **Tag Us in Your Posts** – Share your insights, experiences, or event takeaways and tag **PMI South Florida**. We'll engage back, helping introduce your name and expertise to our broader audience.
- **Expand Your Network** – The more you engage, the more you show up in our community's feeds, connecting you with industry leaders, recruiters, and fellow professionals.

Start engaging today—comment, tag, and share your thoughts to **grow your presence and be seen by the right people!**

UPCOMING EVENT: LACE UP FOR THE FUTURE - PMI SOUTH FLORIDA 5K

Registration is now open! Join us on **Saturday, April 12, 2025**, for PMI South Florida's **Lace Up for the Future 5K Run/Jog/Walk** at Markham Park in Sunrise, FL. This event isn't just about fitness—it's about making an impact! Proceeds will benefit **Lotus House, The Arc of Palm Beach County, and Kids in Distress**, supporting those in need in our community.

A huge thank you to our sponsors: **The Spear Group, Gravity IT Resources, Sneaker Impact, and Runners Depot** for making this possible!

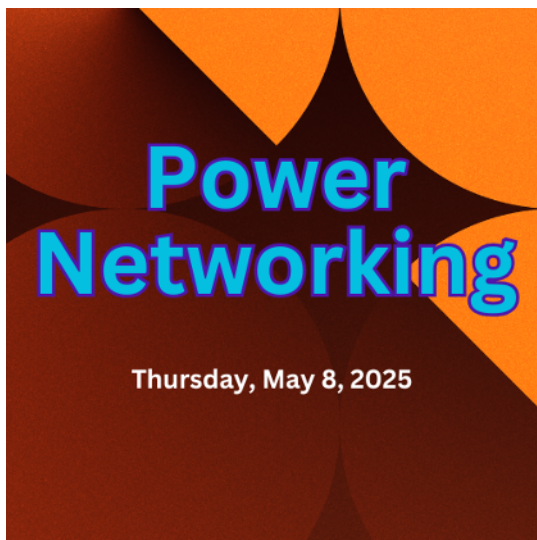

April 12, 2025, Saturday
7:00 PM - 10:00 AM

Markham Park Shelter #2 - #3
16001 W State Rd 84,
Sunrise, FL 33326

[Register Now](https://southfloridapmi.org/)

UPCOMING EVENT: POWER NETWORKING

May 8, 2025, Thursday
6:30 - 9:00 PM (Venue TBA)

Event Highlights

- **Structured Networking Rounds**
- **Welcome Remarks** - Corey Patton, PMI-SFL President
- **Featured Speaker** - William "Wags" Wagner
- **Raffle & Door Prizes**

PMI South Florida is proud to bring back **Power Networking**—a high-energy, results-driven networking experience designed for professionals who are ready to make meaningful connections and advance their careers.

Thanks to the support of our sponsors—**The Spear Group, Gravity IT Resources, and PMOranje**—this event will provide attendees with an exceptional opportunity to engage with industry leaders, exchange ideas, and build relationships that lead to real opportunities.

On **May 8, 2025**, professionals from across industries will come together for an evening of structured, fast-paced networking led by **William "Wags" Wagner**, a renowned networking strategist. This event isn't just about meeting people—it's about fostering valuable relationships that can shape your future.

Mark your calendar and stay tuned! More details will be shared via our website, email, and LinkedIn.

We look forward to welcoming you to an evening of purposeful networking and professional growth.

PMOranje – Your Path to Project Management Excellence

As a PMI Authorized Training Provider (ATP), PMOranje is committed to helping professionals achieve their PMP® and CAPM® certifications—the credentials that set leaders apart in today’s competitive job market. Whether you’re an experienced project manager or just starting out, our expert-led courses equip you with the skills, confidence, and certification to advance your career.

Why Earn Your PMP® in 2025?

- ✓ **Increase Your Earning Potential** – PMP-certified professionals earn 33% more on average.
- ✓ **Stand Out as a Leader** – Globally recognized and respected, the PMP® is the gold standard in project management.
- ✓ **Future-Proof Your Career** – Certification opens doors to top-tier roles, promotions, and new opportunities.

Upcoming Live Online Certification Courses

PMP® Certification Prep (4 Saturdays)

 April 26, May 3, 10, 17 | July 12, 19, 26, August 2 | September 6, 13, 20, 27

CAPM® Certification Prep (3 Saturdays)

 April 19, 26, May 3 | August 16, 23, 30

Invest in Yourself – Flexible & Affordable Learning

PMOranje believes cost should never be a barrier to success. That’s why we offer payment plans and early bird discounts to make certification accessible to all.

Register now at southfloridapmi.org or email pmoranje@gmail.com to secure your spot and learn more.

2025 CHAPTER LEADERSHIP

The PMI South Florida Leadership Team is made up of dedicated volunteers who constantly strive to add value to the membership and to forward the best interests of the chapter. Our diverse expertise and unwavering commitment are invaluable assets as we strive to elevate our Chapter's offerings and impact.

Please feel free to contact any member of the Board with any questions, concerns, or suggestions you may have.
